

QUICK START GUIDE

Linea Pro® 7i Pistol Grip Charging Station (1-Unit)

For Linea Pro 7i Pistol Grips

Assemble Your Charging Station

The Linea Pro Pistol Grip Charging Station is designed specifically to charge the Linea Pro 7i and your iOS device. The iOS device must be properly installed in the Linea Pro 7i for charging to occur.

1. Place the charging station on a sturdy, clean, and dry surface in an open, well-ventilated area away from direct sunlight.
2. Plug in the DC barrel plug, included with the charging station, to the DC port on the front of the charger.
3. Connect the AC power adapter to a power outlet.
4. Insert the pistol grip into the charging station.
5. When the pistol grip is seated correctly, the LED on the front of the charger is green to indicate power is supplied to the iOS device.

Charging Status

The Linea Pro 7i Pistol Grip Charging Station (1-Unit) displays two LEDs to indicate the charge status.

LED Status Indicators

| | |
|--------|---|
| Green | Power is supplied to the charging station. |
| No LED | No device is in the charging station or the power supply is not attached to the charging station. |

Note:

For device charging status, refer to the user documentation for the Linea Pro 7i Pistol Grip and Linea Pro 7i unit.

Troubleshooting

The LED does not illuminate when the Linea Pro 7i Pistol Grip is inserted into the charging station, or the Linea Pro iOS device is not charging.

- Ensure the DC barrel plug is securely inserted into the DC port on the front of the charging station and the AC power adapter is plugged into a working power outlet.
- Ensure the unit is seated properly in the charging station.

It takes an excessive amount of time to fully charge the battery.

- Verify ambient temperature meets the operating temperature requirements.

* Operating: 0°C to +30°C (+32°F to +86°F)
